You can choose to allow Google Scholar to update your profile automatically. You may want to think about whether you prefer to regularly check and make corrections to your profile, or be notified to approve publications that Google Scholar recognises as yours.

To make your profile public, check the box next to **Make my profile public**. Making your profile visible will help your peers find and follow your work.

Click Done

Article updates					
Scholar automatically finds your new articles and changes to existing articles.					
Apply updates automatically					
Email me updates for review					
Profile visibility					
Public profiles help your peers find and follow your work. They also come with a personalized reading list.
