Deposit your journal article to espace via Elements

Making your journal article Open Access has never been easier via espace, Curtin's Institutional Repository

Recently published a journal article?

1

Published open access?

Locate open access DOI or URL

Published in a subscription journal?

Locate your accepted version

Remember this is the author's final version accepted for publication that you downloaded and saved ages ago for this very purpose

Need to locate your accepted version?

2

You are the corresponding author

Contact the journal editor for an accepted version suitable for deposit to an institutional repository

or

Download a copy of the accepted version from the journal online submission portal

Further information and instructions are provided below

Not the corresponding author?

Same as above, except you need to ask you co-author very nicely to follow this up on your behalf

Deposit the accepted version of your article to comply with your publisher licence agreement

Deposit the published version only if you have published open access

Log into Elements

3

Able to locate your article details?

Check the Elements record for accuracy

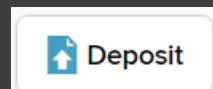

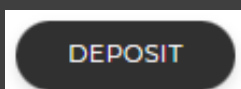

Need to manually enter record details?

Follow instructions on page 14 of Elements Manual

Deposit to espace via Elements

4

Select the deposit icon

Published open access?

Enter DOI or URL

Published in a subscription journal?

Upload accepted version

Receive confirmation

5

Your publication has been deposited.

Your publication will link to espace from your Staff Profile
